Contents _____ Pages

Preface **i-ii**

Diversity of Insect Pollinators and Their Foraging Behaviour on Pomelo (*Citrus maxima*) Flowers in North 24 Parganas, West Bengal, India 1-7

Biswanath Bhowmik

Sustainable Nickel Catalysis for Water Remediation 8-17

Moumita Roy

Study of accumulation of hazardous metals in edible parts of fishes from Kakmara River 18-25

Lina Sarkar

Modern Green Technologies in Multicomponent Synthesis of Pyrano[2,3-c]pyrazole– Recent Advances and perspectives 26-53

Attreyee Mukherjee

Task Specific Ionic Liquids: As Reaction Media and Catalyst 54-59

Chandan Kumar

Tibetan Gazelle (*Procapra picticaudata*) in Indian Trans-Himalayan region: Current status, threats, conservation strategies and human perspective 60-70

Priyankar Sanphui, Rupam Mandal

A Review of Fluorescence Spectroscopic Studies Inside Confined Systems 71-78

Chiranjib Ghatak

Transformation of Plastic Waste into Carbonaceous Materials for Advanced Energy-Storage Applications 79-85

Noor Salam

Tri-metallic Nanoparticles: A Green Approach to Multifaceted Biological Applications 86-92

Sanchayita Adikari

Effect of Climate Change on Coral Mortality 93-103

Pritha Mondal

Sustainable Bimetallic Nanoparticles: Synthesis Approaches and Their Medicinal and Catalytic Activities 104-113

Debasmita Sardar
