

Contents	Pages
Preface	i-ii
Diversity of Insect Pollinators and Their Foraging Behaviour on Pomelo (<i>Citrus maxima</i>) Flowers in North 24 Parganas, West Bengal, India <i>Biswanath Bhowmik</i>	1-7
Sustainable Nickel Catalysis for Water Remediation <i>Moumita Roy</i>	8-17
Study of accumulation of hazardous metals in edible parts of fishes from Kakmara River <i>Lina Sarkar</i>	18-25
Modern Green Technologies in Multicomponent Synthesis of Pyrano[2,3-c]pyrazole– Recent Advances and perspectives <i>Attreyee Mukherjee</i>	26-53
Task Specific Ionic Liquids: As Reaction Media and Catalyst <i>Chandan Kumar</i>	54-59
Tibetan Gazelle (<i>Procapra picticaudata</i>) in Indian Trans-Himalayan region: Current status, threats, conservation strategies and human perspective <i>Priyanka Sanphui, Rupam Mandal</i>	60-70
Fluorescence Spectroscopic Investigation of Several Photophysical and Dynamical Phenomena Inside Biologically Relevant Environment <i>Chiranjib Ghatak</i>	71-78
Transformation of Plastic Waste into Carbonaceous Materials for Advanced Energy-Storage Applications <i>Noor Salam</i>	79-85
Tri-metallic Nanoparticles: A Green Approach to Multifaceted Biological Applications <i>Sanchayita Adikari</i>	86-92
Effect of Climate Change on Coral Mortality <i>Pritha Mondal</i>	93-103
Sustainable Bimetallic Nanoparticles: Synthesis Approaches and Their Medicinal and Catalytic Activities <i>Debasmita Sardar</i>	104-113
