

Table of Content

Chapter 1: Basic Concepts of Microbiology	1
1.1 Major contributors in Microbiology Field	2-3
1.2 Techniques Used for Studying Microorganism	3-6
1.3 Classification of Bacteria	6-8
Summary	8
Chapter 2: Physiology of Prokaryotes and Eukaryotes	10
2.1 Cell Structure and Evolutionary history	11-12
2.2 Microbial diversity	12-14
2. 3 Microscopy and Cell Morphology	14-18
2. 4 Cell Membrane and Cell Wall	18-21
2.5 Surface Structures of Prokaryotes	21-25
Summary	27
Chapter 3: Functional Anatomy	29
3.1 Functions of cellular structure of Bacteria	30-32
3.2 Osmosis and water transport in bacteria cell	32-35
3.3 Transport of material through Plasma Membrane	35-36
3.4 Protozoa	37-39
3.5 Fungi	39-43
3.6 Algae	43-45
Summary	46
Chapter 4: Microbial Growth & Requirements	50
4.1 Steps in Bacterial Cell Division	50-51
4.2 Key Proteins Involved in Bacterial Cell Division	52-53
4.3 Phases of Bacterial Growth:	54-56
4.4 Key Environmental Factors Affecting Bacterial Growth:	57-60
Summary	62
Topic 5: Metabolism- Central Metabolic Pathway	64
5.1 Carbohydrate Metabolism in Bacteria	65-66
5.2 Photosynthesis	66-67
5.3 Anabolic Pathway	67-69
Summary	71
Topic 6: Microbial Growth Control	73
6.1 Physical antimicrobial control	74-75
6.2 Chemical Antimicrobial Control	75-76
6.3 Antimicrobial Agents Used in Vivo: Control of Viruses and Eukaryotic	76-77

Pathogens Antiviral Agents:	
6.4 Antimicrobial Drug Resistance and Drug Discovery	77-78
Summary	79
Topic 7: Microbial Genetics	81
7.1 Microbial Genome: Structure and Replication	82-83
7.2 Bacterial Replication	83-84
7.3 Gene Mutations in Bacteria	84-87
Summary	87
Topic 8: Bacteria and Diseases	89
8.1 Factors contributes to diseases	90-93
8.2 Comparison of Endotoxins and Exotoxins	93-94
8.3 Effects of Endotoxin and exotoxin	94-95
8.4 Pathogenic Gram-Positive Cocci	95-97
8.5 Pathogenic Gram-Positive Bacilli	97-98
8.6 Pathogenic Gram-Negative Cocci	98-99
8.7 Pathogenic Gram-Negative Bacilli	99
Summary	100
Topic 9: Application of Microorganism	102
9.1 Industrial Microorganisms and Product Formation	103-105
9.2 Medical Products for the Health Industry	105-107
Summary	109
