

Table of Content

Topic	Page
Introduction to Molecular Biology	1
The Structure of DNA	20
Genome Organization: From Nucleotides to Chromatin	34
The RNA	52
The Protein	63
DNA Replication	75
Mutation and DNA Repair	87
Tools for Analyzing Gene Expression	99
Transcription in Prokaryotes	110
Transcription in Eukaryotes	121
The Mechanism of Translation	135
Molecular Techniques	147
Genome Analysis: DNA Typing, Genomics, And Beyond	164
